

Eythorne & Elvington Newsletter

Week Commencing Monday 26 June

Thank you to those family members who were able to come along on Friday to see the Challenger and Atlantis classes joint assembly. It was great to see the levels of enthusiasm they have for their recent topic of World War II. We hope you had fun in the classroom following the assembly working alongside your children in some exciting activities.

This coming Friday we look forward to seeing the parents of children from Discovery class. Once again, the teachers have invited you to stay after the assembly and take part in some fun learning activities back in the classroom. The assembly as always starts at 9am—we hope as many of you as possible can make it.

The forest school taster sessions continue this week with Year 2 on Monday afternoon and then Years 5 and 6 on Thursday. The school council raised last week just how much the children were enjoying these sessions and are excited at the prospect of it being a regular part of the curriculum next year. Please ensure the children from the above classes come to school with the appropriate clothing needed for these sessions (they should have long trousers as well as long sleeve tops).

As well as this newsletter, children should also be coming home with a letter all about our next Focus Week which takes place during the week commencing 10th July. This week will provide opportunities for children to experience and learn about some different cultures. As part of the weekly timetable, children from years 1 to 5 will be visiting Canterbury Cathedral. We are also arranging for Discovery class to take the train up to a local church in Shepherdswell. Please return the permission slip and money for this trip to the school office as soon as possible.

We are two thirds of our way through collecting items for this years tombola at the summer fayre. Thank you so much for the toys and bottles you have sent in over the past fortnight. This Friday is our final non-uniform day and we ask children to come to school with some cakes. The following day (Saturday 1st July) is the summer fayre. This is such a great event and we hope to see as many families as possible there (1—4pm).

Stars of the Week

Discovery: Tommy

Voyager: Phoebe and Riley

Challenger: Kiera and Allie

Team Points:

The points gained last week were as follows:

Mercury: 31

Saturn: 46

Neptune: 51
